

Bush Hog Zero Turn Mowers Are Comfortable and Productive

A. DURABLE SUN PROTECTION.

Easy to mount fiberglass canopy (optional) provides shade. Built-in ridges add strength and prevent warping. Color won't fade.

B. ADJUSTABLE CONTROL HANDLES.

Control handles are easy to grip, non slip and adjust to fit all operators

C. ADJUSTABLE SEAT.

Seat adjustments make people of all sizes comfortable. Combination of control handles and seat adjustments assure comfort and safety for both men and women operators

D. ADJUSTABLE ARM RESTS.

Arm rests adjust in seconds to provide comfort that exactly fits the operator. Women especially appreciate the combination of adjustable arm rests, seat and control handles.

E. START EARLY. STOP LATE.

Halogen headlights (optional) make it easy to start early or finish that last job in the evening. Lights can be angled from the seat.

F. SAFETY FEATURES.

Safety features on every Bush Hog Zero Turn Mower include non-slip mounting pads, automatic engine cut-off switch in seat, large easy-to-grasp controls, Rigid ROPS available on Estate Series, fold-down ROPS with retractable seatbelts standard on Commercial and Professional Series.

G. LARGE DRIVE

TIRES 22-inch diameter drive tires provide better traction and smoother ride on Estate Series models. 24-inch diameter tires provide traction and smooth ride on Commercial and Professional Series models.

Model shown with some options.
